

Working together. Building Community in Southwestern Ontario

In order to help mitigate the spread of COVID-19, many ESC member organizations are now closed to in-person traffic and have suspended face-to-face services. However, in most cases, staff are working remotely, core services will continue via phone, email, or online, and referrals are welcome.

Please check the websites below for the COVID-19 related service changes, resources, and contact information, specific to each organization.
